PLEASE JOIN US!

new jersey family policy council

Our vision is to build New Jersey into one of the best places in the world to raise a family by exhorting our citizens, churches and government to encourage, support and uphold traditional families. Our efforts inspire our state to work toward having the nation's highest success rates of families that stay together and go the distance. *We're all about "building strong families."*

Our mission is to intervene and respond to the breakdown that the traditional family, the cornerstone of a virtuous society, is experiencing. In light of the decline in moral standards, we are energized by a strong desire and dedication to pursue justice and righteousness. We articulate our message through experts in law, medicine, education, media, business, government and the church.
